

Collaborative Ground Segment – Workshop #16

Welcome

December 2018

Agenda Tuesday a.m.

Opening and Welcome

09:30 Welcome.

Copernicus Sentinel Ground Segment and Data Access Operations Status and short term outlook (part 1)

09:40 Sentinel & DIAS Operations Status [Betlem Rosich]

10:00 Data Access Operational Status [Roberto Sciarra]

10:20 Data Hub Software Open Source Status [Barbara Borgia]

10:30 Coffee

Member States Presentations (part 1)

10:45 Member States Presentations

Copernicus Sentinel Ground Segment and Data Access Operations Status and short term outlook (part 2)

11:45 Data Hub Evolution for Offline Access [Olivier Barois]

Lunch (12:30 - 13:30)

Agenda Tuesday p.m.

Copernicus Sentinel Data Flow Operational Concepts Evolution (part 1)

13:30 Data Access Evolution for Sentinel2 L2A On Demand [Jolyon Martin]

13:45 Collaborative Ground Segment Data Access Reporting Dashboard [Roberto Sciarra]

14:00 ESA Copernicus Operations Analysis – Evolution Recap [Betlem Rosich]

14:15 Product Lifecycle Evolution [Jolyon Martin]

Member States Presentations (part 2)

14:45 Member States Presentations

Copernicus Sentinel Data Flow Operational Concepts Discussion (part 2)

15:45 Data Hub Architecture Evolution – Introduction to ENS [Christophe Demange]

16:15 Data Hub Architecture Evolution – Data Hub Architecture Evolution [Frederic Pidancier]

16:45 Open Discussion [Jolyon Martin]

Aperitif (17:00)

Agenda Wednesday am.

Wednesday 5th December 09:30 - 12:30

Member States Presentations (part 3)

09:30 Member States Presentations

10:30 Coffee

Data Hub Relay Architecture Discussion

10:45 Data Hub Relay Architecture Discussion [Jolyon Martin]

Collaborative Ground Segment Lessons Learnt

11:15 CollGS Lessons Learnt [Eric Monjoux]

Close (12:30)

Member States Presentations

- Belgium
- Finland
- Austria
- Greece

- France
- Poland
- Norway
- Romania

- Germany
- UK
- Czech
- Netherlands

Collaborative Ground Segment Workshop

- Building from the CollIGS Experiences:
- Definition and Prioritisation of Topics
- Exchange of TN / Issues
- Prototype Implementation
- Operational Validation
- Update of Operational Concepts & Scenarios

Access to Technical Documents

- Technical Documentation is available in a dedicated project within the JIRA instance supporting the CollGS Mirror Sites using DHuS and Data Hub Relays
- <https://copernicus.serco.eu/jira-osf/projects/CGSW>
- At present all CollGS Mirror Sites and DHRs have access already
- All other CollGS points of contact will be registered with the email from: <https://sentinels.copernicus.eu/web/sentinel/missions/collaborative/national-points-of-contact>
- Please let me know by 10/12/18 if a different email preferred for this Technical Exchange

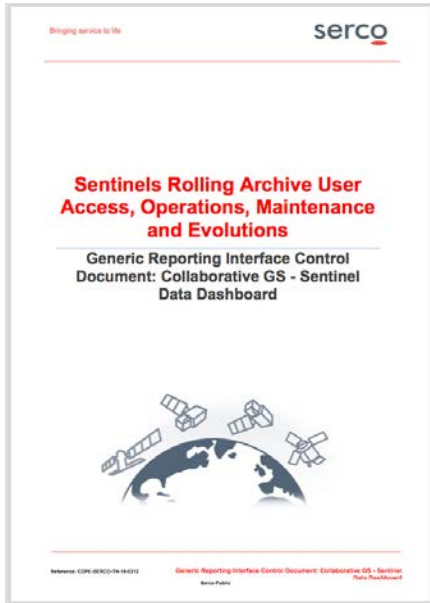

Review Comments

Please select correct component for raising new comments

Schedule for review announced within first issue for each document

First topic CollGS – Sentinel Data Dashboard I/F

Schedule for comments: 14/01/19

Webex for consolidation: 28/01/19

Modus operandus to be refined following the initial loops

In case of any doubt, please contact me
